

Our enduring messages to members

- Superannuation is the longest term investment most of us will ever have.
- Australian Retirement Trust's diversified options have delivered very strong long-term returns.
- We do not manage portfolios on the basis of our own or anybody else's short-term economic or market forecasts.
- Nor can we predict how geopolitical events (e.g. the War in Ukraine) will play out.
- Crises, recessions, market downturns are near impossible to predict in advance.
