

Your duty to take reasonable care not to make a misrepresentation

About your duty

When you apply for life insurance as a member of Australian Retirement Trust, the insurer may conduct a process called underwriting. It's how the insurer decides whether it will cover you, and if so on what terms and at what cost. If your application is underwritten, you will be asked questions which the insurer needs to know the answers to. These will be about your personal circumstances and may include questions about your health and medical history, occupation, income, lifestyle, pastimes, and current and past insurance. The information you provide in response to the questions is vital to the insurer's decision.

The duty to take reasonable care

When applying for insurance which is to be underwritten, you have a legal duty to take reasonable care not to make a misrepresentation before your application is accepted by the insurer. A misrepresentation is a false answer, an answer that is only partially true, or an answer which does not fairly reflect the truth. This duty also applies when extending or making changes to existing insurance, and reinstating insurance.

If you do not meet your duty

If you do not meet your legal duty, this can have serious impacts on your insurance. Your cover could be avoided (treated as if it never existed), or its terms may be changed. This may also result in a claim being declined or a benefit being reduced. Please note that there may be circumstances where the insurer later investigates whether the information you provided was true. For example, the insurer may do this when a claim is made.

Guidance for answering questions

When answering questions as part of an application for insurance cover, you should:

- Think carefully about each question before you answer. If you are unsure of the meaning of any question, please ask us or the insurer before you respond.
- · Answer every question.
- · Answer truthfully, accurately and completely.
- If you are unsure about whether you should include information or not, you should include it.
- Review your application carefully before it is submitted. If someone else
 helped prepare your application (for example, your adviser), you should
 check every answer (and if necessary, make any corrections) before the
 application is submitted.
- You must not assume that Australian Retirement Trust or the insurer will contact your doctor for any medical information.

Changes before your cover starts

Before your application is accepted, the insurer may ask about any changes that mean you would now answer the questions differently. As any changes might require further assessment or investigation, it could save time if you let us or the insurer know about any changes when they happen.

If you need help

It's important that you understand this information and the questions that you are asked. Ask us or the insurer for help if you have difficulty understanding the process of applying for insurance or answering our or the insurer's questions. If you're having difficulty due to a disability, understanding English or for any other reason, we are here to help and can provide additional support for anyone who might need it.

What can the insurer do if the duty is not met?

If you do not take reasonable care not to make a misrepresentation, there are different remedies that may be available to the insurer. These are set out in the *Insurance Contracts Act 1984* (Cth). These are intended to put the insurer in the position they would have been in if the duty had been met.

For example, the insurer may:

- avoid the cover (treat it as if it never existed);
- · vary the amount of the cover; or
- · vary the terms of the cover.

Whether the insurer can exercise one of these remedies depends on a number of factors, including:

- whether you took reasonable care not to make a misrepresentation (this depends on all of the relevant circumstances);
- what the insurer would have done if the duty had been met for example, whether they would have offered cover, and if so, on what terms;
- whether the misrepresentation was fraudulent; and
- in some cases, how long it has been since the cover started.

Before the insurer exercises any of these remedies, they will explain their reasons, how to respond and provide further information, including what you can do if you disagree.

Duty to take reasonable care not to make a misrepresentation

When applying for insurance, there is a legal duty to take reasonable care not to make a misrepresentation to the insurer when applying for insurance. To meet this duty, you must also take reasonable care not to make such a misrepresentation.

A misrepresentation is a false answer, an answer that is only partially true, or an answer which does not fairly reflect the truth.

This duty also applies when extending or making changes to existing insurance, and reinstating insurance.

If you do not meet your duty

Not meeting your legal duty can have serious impacts on your insurance. Your cover could be avoided (treated as if it never existed), or its terms may be changed. This may also result in a claim being declined or a benefit being reduced.

Please note that there may be circumstances where we later investigate whether the information given to us was true. For example, we may do this when a claim is made.

About this application

When you apply for life insurance, we conduct a process called underwriting. It's how we decide whether we can provide cover, and if so on what terms and at what cost.

We will ask questions we need to know the answers to. These will be about personal circumstances, such as your health and medical history, occupation, income, lifestyle, pastimes, and current and past insurance. The information given to us in response to our questions is vital to our decision.

When you apply for insurance benefits through a superannuation fund, or ask to extend or make changes to existing insurance benefits, the fund trustee may pass on to us personal information you provide to them. You also therefore need to take reasonable care not to make a misrepresentation when providing this information to the fund trustee.

Guidance for answering our questions

You are responsible for the information you provide to us. When answering our questions, you should:

- think carefully about each question before answering. If you are unsure of the meaning of any question, please ask us before you respond
- · answer every question
- answer truthfully, accurately and completely. If you are unsure about whether you should include information, please include it. Please don't assume we will ask others such as your doctor
- review your application carefully. If someone else helped prepare your application, please check every answer (and if necessary, make any corrections).

Changes before your cover starts

Before your cover starts, please tell us about any changes that mean you would now answer our questions differently. It could save time if you let us know about any changes as and when they happen. This is because any changes might require further assessment or investigation.

Notifying the insurer

If, after the cover starts, you think you may not have met your duty, please tell us immediately and we'll let you know whether it has any impact on the cover.

Telephone contact

After you submit your application, we may contact you by phone to collect any information missing from your application. The information you provide will be recorded and used in the assessment of your application for insurance cover. The need for you to take reasonable care not to make a misrepresentation to the insurer before the contract of insurance is entered into also applies during any phone contact with us.

If you need help

It's important that you understand this information and the questions we ask. Ask us for help if you have difficulty answering our questions or understanding the application process.

If you're having difficulty due to a disability, understanding English or for any other reason, we're here to help and can provide additional support for anyone who might need it. You can have a support person you trust with you.

What can we do if the duty is not met?

If you do not take reasonable care not to make a misrepresentation, there are different remedies that may be available to us. These are set out in the *Insurance Contracts Act* 1984 (Cth). They are intended to put us in the position we would have been in if the duty had been met.

For example, we may do one of the following:

- · avoid the cover (treat it as if it never existed)
- · vary the amount of the cover
- · vary the terms of the cover.

Whether we can exercise one of these remedies depends on a number of factors, including all of the following:

- whether you took reasonable care not to make a misrepresentation. This depends on all of the relevant circumstances. This includes how clear and specific our questions were and how clear the information we provided on the duty was
- · what we would have done if the duty had been met for example, whether we would have offered cover, and if so, on what terms
- whether the misrepresentation was fraudulent
- in some cases, how long it has been since the cover started.

Before we exercise any of these remedies, we will explain our reasons, how to respond and provide further information, and what you can do if you disagree.

11. Consent for accessing Health Information

Notes on releasing information about your health

Your health information includes details about all your interactions with health providers, and may include details such as your symptoms, treatment, consultations, personal medical history and lifestyle. Health providers cannot release this information about you without your consent.

We, Zurich, collect and use your health information to assess your application for cover, to assess and manage your claim, or to confirm the information you gave us when you applied for cover or made a claim. This is why we need your consent.

Each time you apply for cover or make a claim, we will ask you for a fresh consent. We will respect your privacy by only asking for the information we reasonably need, and we will tell you each time we use your consent.

Please read each Authority carefully and the explanatory notes below.

Authority 1 explanatory notes – through this Authority, with the exception of a copy of the consultation notes held by your General Practitioner/Practice, you are consenting to any health provider releasing any health information about you in the form we ask for. This may involve, for example:

- preparing a general report and/or a report about a specific condition;
- · accessing and releasing your records in SafeScript;
- · releasing your hospital patient notes;
- releasing the results of any investigations they have done; and/or
- · releasing correspondence with other health providers.

Authority 2 explanatory notes – through this Authority, you are consenting to any General Practitioner/Practice you have attended releasing a copy of your full record, including consultation notes, but only if we have asked them to provide a general report and/or a report about a specific condition under Authority 1, and either:

- · they will be unable to, or did not, provide the report within 4 weeks; or
- the report provided is incomplete, or contains inconsistencies or inaccuracies.

Your General Practitioner maintains consultation notes to support quality care, your wellbeing and to meet legal and professional requirements. General Practitioners/Practices should only release a copy of your full record, including consultation notes, for life insurance purposes in the rare circumstances set out above.

If you choose to withhold your consent to this authority, we may not be able to process your application for cover or a claim.
