# Important information

### Who can make spouse contributions?

Contributions can be made into Australian Retirement Trust for a spouse, even if that spouse is not employed. In some circumstances, a tax rebate is allowed on contributions paid on behalf of a spouse.

The person making the contributions:

- can be any age
- must be an Australian resident

The receiving spouse

- if below 75 years of age
- has provided a tax file number (TFN) to Australian Retirement Trust.

'Spouse' includes another person who, although not legally married to the person, lives with the person on a genuine domestic basis in a relationship as a couple, and another person (whether of the same sex or a different sex) with whom the person is in a relationship registered under State or Territory law

Any spouse contributions received which don't meet the above requirements will be refunded by Australian Retirement Trust. If your circumstances change and you no longer meet the above requirements please advise Australian Retirement Trust in writing to stop any direct debit or contributions will continue to be deducted.

#### **Taxation**

From 1 July 2007, contributions made directly by an individual into their spouse's account will be counted against the receiving spouse's non-concessional contributions cap. A tax rebate of up to \$540 may be available for up to \$3,000 of superannuation contributions made by a tax payer on behalf of a non-working or low income spouse. The rebate is available to a person who makes spouse contributions where:

- the person has a spouse
- the person makes voluntary after-tax (i.e. not salary sacrifice) contributions on behalf of their spouse (whether the spouse is gainfully employed or not)
- the contributions are not tax deductible for the person contributing
- both the person contributing and the spouse are Australian residents, and
- the spouse's assessable income (disregarding your spouse's FHSSS released amount for the income year), total reportable fringe benefits amounts and reportable employer super contributions are less than \$40,000.

Contributions made for a receiving spouse cannot be refunded to the contributing tax payer.

For taxation purposes, spouse contributions are treated as follows:

- non-concessional (but these contributions will be preserved)
- tax free when withdrawn (but interest on these amounts may be taxed)
- $\bullet$  not subject to 15% contributions tax, and
- not surchargeable.

### Preservation

Any spouse contributions must be preserved until:

- you retire at your preservation age (55 for people born prior to 1 July 1960 but increasing in yearly increments to age 60 for people whose dates of birth range from 1 July 1960 to 1 July 1964)
- you resign from employment at or after age 60
- you are totally and permanently disabled
- you are permanently incapacitated
- your death
- you reach age 67, or
- you reach your preservation age and purchase a noncommutable income stream.

You may also be able to apply to access preserved money on compassionate grounds.

### Non-concessional (after-tax) contributions cap

The amount of non-concessional contributions you can make in a financial year without being subject to additional tax is capped, subject to the 'bring forward' rule explained below. The cap for the 2024-25 financial year is \$120,000.

Please contact the Australian Taxation Office (ATO) on 13 10 20 or go to ato.gov.au for information about tax, penalties and what to do if you exceed your contribution caps.

If you're under age 75 at 1 July of the financial year, you'll be able to 'bring forward' future entitlements to two years worth of non-concessional contributions for that year. This means, for example, that a person under age 75 would be able to contribute non-concessional contributions totalling \$360,000 in the 2024-25 financial year without exceeding their non-concessional contribution cap.

If you're under age 75 in a particular financial year, you may be able to 'bring forward' two year's worth of contributions, effectively giving you a cap of \$360,000 over three years.

For example, provided you haven't already exercised the bring forward rule in the previous two years, you can make contributions up to a total of \$360,000 over the three-year period 2022/23 - 2024/25 without exceeding your cap. Any contributions over \$360,000 in that three-year period will be subject to tax at your marginal tax rate.

Please note your total superannuation balance, at 30 June the previous year, must be less than \$1,900,000 to be eliquible to make non-concessional contributions.
