Transferring to a self-managed super fund (SMSF)?*

Super funds (including SMSFs) must use SuperStream to roll over your super benefits. This means your SMSF will need:

- · an electronic service address
- an Australian business number (ABN)

Please note - We encourage you to ensure the SMSF details held with the ATO are correct before initiating the roll out request.

Under superannuation legislation, we can only transfer balances to a SMSF if you (or your company) are a member, trustee or director of a corporate trustee of the SMSF. For identification purposes, you'll also need to provide proof of identity documents detailed on this page. and a copy of a bank statement for the SMSF. The bank statement must have been issued within 12 months and include the following:

- The SMSF name as account holder
- · BSB and account number
- The institution name and logo.

We cannot process your request until this information is provided.

We'll check with the ATO that the SMSF is complying. If we're unable to, we'll let you know. We'll verify with the ATO that:

A. **The SMSF is complying.** Please provide the SMSF's ABN (ACN, TFN or Fund name only won't verify complying status).

AND:

B. You are a member, trustee or director of a corporate trustee of the SMSF.

If you're a director of the corporate trustee your details are registered with ASIC not with the ATO. You'll need to contact the ATO and update your fund details so we can confirm you're a trustee of your SMSF.

For more information on how to update your status you can call the ATO on 13 10 20 between 8am and 6pm, Monday to Friday or visit ato.gov.au.

Do you have insurance cover with your account?

It's important to check if you have insurance cover with your Australian Retirement Trust account before you complete this form.

If you do, and want to maintain your insurance cover in your Australian Retirement Trust account, you'll need to ensure there is enough money to pay for any future insurance premiums and you will need to make at least one eligible contribution every 12 months or advise us via Member Online that you wish to retain your insurance cover.

Refer to the relevant Product Disclosure Statement (PDS) for more information about when insurance cover stops.

Providing your tax file number (TFN)

Under the *Superannuation Industry (Supervision) Act 1993*, your superannuation fund is authorised to collect your TFN, which will only be used for lawful purposes.

These purposes may change in the future as a result of legislative change. The trustee of your superannuation fund may disclose your TFN to another superannuation provider, when your benefits are being transferred, unless you request the trustee of your superannuation fund in writing that your TFN not be disclosed to any other superannuation provider.

It is not an offence not to quote your TFN. However giving your TFN to your superannuation fund will have the following advantages (which may not otherwise apply):

- your superannuation fund will be able to accept all types of contributions to your account/s
- the tax on contributions to your superannuation account/s will not increase
- other than the tax that may ordinarily apply, no additional tax will be deducted when you start drawing down your superannuation benefits, and
- it will make it much easier to trace different superannuation accounts in your name so that you receive all your superannuation benefits when you retire.

*Please note that we reserve the right to request additional information before processing any transfers to SMSFs. We may also contact you by telephone to confirm the details of this transfer request. Our information requirements for these payments reflect the unique regulations and risks pertaining to SMSFs as well as the trustee for Australian Retirement Trust's obligation to ensure that transfers to these funds are compliant.

Warning – illegal early release schemes Superannuation scams or early release schemes which offer to give you early access to your superannuation, often through a self-managed super fund and/or for a fee, are illegal. You cannot legally have access to the 'preserved' part of your super until you reach your 'preservation' age (ranging from 55 to 60 years of age, depending on when you were born) or meet a condition of release, such as compassionate grounds. If you do access your super early for an illegal reason, you may be subject to legal action and heavy penalties (including tax). If you receive one of these offers or want independent advice, please contact us or the Australian Taxation Office and report that you have been approached by an early release scheme.
